

### Antinomy and Symbol: Pavel Florensky's Philosophy of Discontinuity

Pavel Florensky (1882–1937) was a Russian philosopher, theologian, and scientist. He was considered by his contemporaries to be a polymath on a par with Pascal or Da Vinci. This book is the first comprehensive study in the English language to examine Florensky's entire philosophical oeuvre in its key metaphysical concepts. For Florensky, antinomy and symbol are the two faces of a single issue—the universal truth of discontinuity. This truth is a general law that represents, better than any other, the innermost structure of the universe. With its original perspective, Florensky's philosophy is unique in the context of modern Russian thought, but also in the history of philosophy per se.

**Andrea Oppo** (1970), Ph.D., is Professor of Philosophy at the Pontifical Theological University of Sardinia (Italy). He is the author of several works, including *Shapes of Apocalypse: Arts and Philosophy in Slavic Thought* (ed.) (2013) and *Lev Shestov: The Philosophy and Works of a Tragic Thinker* (2020).

Contemporary Russian Philosophy (CRPH) explores a variety of perspectives in and on philosophy as it is currently practiced by scholars in the field. Co-sponsored by the Center for Professional and Applied Ethics at the University of North Carolina, Charlotte, this special series publishes monographs, collaborative works, edited volumes, and translations on both contemporary issues and historical topics of philosophical importance today. The series features a range of scholarly approaches, from studies of individual thinkers or topics to transnational, interdisciplinary, and comparative examinations in contemporary context.
